2,3,4	Completion of the proposal for the Visiting Advisor Program	A draft proposal has been produced and discussed at the GIC meetings in Sheffield (July 2017) and St. Louis (October 2017). EO/Rhonda Baker; Annual Conference Advisory Board; Professional Development Committee	Clear lines of communication will be maintained with the groups and individuals in the box to the left.	With the change in the leadership of the Annual Conference, we will further explore this in 2019. A table has been added for our Global friends in which they can distribute their information.	At the annual meeting of the GIC we will explore the possibility of creating a seating area for the global participants to gather, to network or ask questions at the Annual Conference.
2,4	Further exploration and expansion of the international network of relevant associations and organizations.	Maintain existing connections with organizations such as UKAT (UK) and LVSA (Netherlands) by reciprocally promoting and if possible attending events; seeking connections with other associations. A new potential area for developing connections is Japan.	Inventory of known associations with brief description of their mission, organizational structure, membership, and potential for collaboration; contacts with new associations (e.g. Australia, Ireland, Sweden).	Mainly external partners.	This is a slow process, requiring patience and personal contacts.	Reaching out to global associations and organizations is mostly an organic process. The GIC does not consider this to be an explicit goal for the coming year.
