### Discussion Items

- Report on status of **GOALS 2017-2018** – Chair Sarah Champlin-Scharff went over her report to the administrative division
- Subcommittee reports
  - Mentoring (Sarah) – Several potential options for pairing with the Emerging Leaders Program have been discussed. The ELP-AB would prefer to approach it as a “post-ELP” experience, in which an EL who expresses moving forward with research leadership might be paired with a second mentor from the Research Committee either towards the end of their ELP experience or after coming the program.
  - Mission – Sarah thanked all who served on this subcommittee. The recommended changes passed through the Administrative Division (yesterday) and the Council (this morning), and are expected to be passed by the Board of Directors.
  - Website Review – Drew reported on preliminary changes that have been made. This work will continue in the coming year.
- Research Modules (Research Center)—Sample <https://www.nacada.ksu.edu/Resources/Research-Center/Research-Skills-Tips.aspx> (Kiana, Sarah, and Wendy) – Work has begun. Peter Hagen’s module is up and others are in process. Wendy is assisting with logistics. Additional volunteers are being recruited.
- Organized mentoring
  - Regional and Annual Conference (Learning and Mentoring Opportunities)

- Research Symposium (Relationship with Research Center) – Wendy explained what took place this year with the Winter Seminar. It went very well for those who attended, but attendance was not high enough to support it in this venue in future. They are looking at possibilities for doing this at the Research Center in Manhattan as a joint effort of the Research Center and Research Committee. A team is considering what the curriculum would look like. Also discussing possibilities for Region Conference presence. Wendy would provide logistics support but would not be the primary faculty for either venue, as this needs to be member-driven.
- Research Room here at Annual Conference – everyone who can is asked to stop by to see what is going on and assist, if possible.
- Literature review of the field or something like Sandford Encyclopedia of Philosophy <https://plato.stanford.edu> - Wendy is leading this initiative and will present on it here. The team reviewed ~700 articles in 140 publications written over the past 15 years.
