Develop & sustain effective Association Leadership	Have a minimum of 2 members run for chair of the Advising Education Majors Commission Group	To have 2 or 3 individuals fill out the nomination information	The day of voting will tell us if the number was met.	Finding individuals who know that the financial resources will be in place so they will be attending the NACADA meetings for the next few years.	Recruit during the annual meeting those who are "regulars" and have been attending the annual meeting for several years.	3 members ran for the position of Education Chair	Dawn Knight Withers was elected for 2017-2019
Pursue innovative technology tools and resources to support the Association	Develop a Facebook page for the Advising Education Majors group	Find an individual who will assist in setting up the page who has knowledge in this area	Have the actual Facebook page active by January.	Will need to connect with the home office to verify any process or restrictions.	Finding members and verifying any who request to join the group. Also if the page will be restricted to members only.	this did not happen this year. Several issues with who would be the person to edit	will turn this idea over to new Chair to see if this is a possibility for the next year

Provide professional development opportunities that are responsive to the needs of advisors and advising administrators	Increase the number of proposal submissions and presentation for the Annual Conference to 10	We did not hit this mark last year and so it is here again this year. We need to increase the submissions for the Annual Conference	Count the number of submissions in March to see if the number was met.	Using the list serve effectively by sending out reminders for submission before the holidays so the break can be used for this purpose. Gather in groups at annual meeting to encourage collaboration.	Time is always the issue. Sending out a reminder on the list serve several times about submitting. And to suggest topics they may wish to consider to help with a "jump start" Also send out a more personal note to those who attended the annual meeting.	We reviewed a number of proposals, but not all were education related. We know that there were a number of education related submissions	a continuing goal for this commission group is to encourage and provide ideas and support for those in this CIG and encourage them to write a proposal. This will be passed on to the new chair
Expand and communicate the scholarship of academic advising	Sustain the number of readers for the Annual Conference at 15	15 readers for 2015 and so the goal is to continue to have the same number again this year	Count the number of readers in March to see if the goal was met	Send out opportunity through the list serve as well as the annual meeting	Time. Everyone is busy in January and February when the proposals are submitted. So advanced notification will need to be sent.	This we did well! We had 19 members volunteer to read for the Annual Conference	Encourage new chair to recruit volunteers early.
