Future action(s) based on data  <i>(Data-informed decisions)</i>  <i>(Complete in August 2022 report)</i>
Develop innovative and expanded opportunities for professional development that are relevant across the global contexts of academic advising.	Create more PAM programming that highlights members from institutions across the world. Work to have more consistent programming each semester for PAM.	Organize a subcommittee within PAM to plan at least three professional development opportunities for PAM members each semester.	We will conduct surveys after each professional development opportunity. And at the beginning of every semester we will conduct a survey to gather ideas from the community on what activities they would like PAM to provide to them.	Possible collaborations with other advising communities. We have already been thinking about having panel discussions with the social justice and academic coaching communities.	Finding the best possible times for these activities so everyone can join in if they would like. Also getting the PAM messaging out more consistently.	PAM was able to hold two virtual events to connect our members. The events were well attended (between 15 and 20 people) in comparison to previous events for the AC.	Will be creating a plan with the AC SC members on what events we will hold for this upcoming academic year.
Provide practices that allow members to identify and cultivate their long-term professional development and engagement with the association.	Provide more opportunities for PAM members to participate in our community.	Adding more members to the steering committee. Breaking up the steering committee into subcommittees and then asking members to serve on subcommittees to assist with events and programming.	Have subcommittees set with at least three PAM members per subcommittee. From there each subcommittee will be responsible for at least two activities or programming per	There may be possible collaborations with other advising communities for the programming/events. We will also need to work with EO for website updates.	The main challenge will be to manage everyone's schedules with all of the programming we would like to provide through PAM. Hopefully by having subcommittees that will help to have less of the burden fall on one person.	Unfortunately, we were unable to hold more events due to our own scheduling conflicts as a AC. We put out a call for more AC members but only gained one. We are hoping to gain more during the annual conference or during the virtual	With a new academic year I hope that we might find more times available to hold events that meet all of the AC SC members' schedules. We will create several opportunities to ask for volunteers for the AC SC.

			year.			events for the Fall 22 semester.	
Foster communities of practice that empower members to advance the scholarship of academic advising.	Our members would like for PAM to create a database that has information on all of the PAM related groups at institutions around the world. From there we would hope that this could turn into an initiative for PAM scholarship.	Create survey for information on all of our members peer advisor or peer mentoring programs. From there create a database that can be listed on the website. Once that is created then we will ask our members who may want to participate in a new scholarship initiative for PAM.	We will measure this outcome by when we get the database on the website and begin our scholarship initiative.	We will need to work with EO to get all of the information added to our website.	Our committee will need to figure out the best tool to display the database information and we will need to figure out how often we will collect information from our members for the database. In addition, we will need to think about how often we update the database.	We were unable to create the survey for our members to gather more information about their programs. But one of our AC members will be focusing on this during the Fall 22 semester.	Create and send out survey to members.
Identify and remove barriers to accessibility of all opportunities for engagement and professional growth in the association to foster equity and inclusion for all members.	Make all PAM materials and programming ADA accessible.	Update website materials to be ADA compliant. Make sure that we have recordings of activities with live transcripts and or closed captioning.	This will be a continuous action to make sure everything we do is ADA accessible.	We will need to work with EO to get all of the information added to our website.	We will need to find someone to close caption our meetings and events. We will also need to have scripts for our meetings available for members who need them.	We had the website updated with our AC SC members, but other resources need to be updated.	Work with AC SC on how to update our website with the best resources.
