What support is needed for your cluster from the Division Reps or EO?

Megumi needed some data about proposal submission, but I believe she got this easily. Drew may need some guidance on Zoom meetings through NACADA and also data on the number of emails exchanged since annual. Overall, we are good to go, though.

Additional Items of Note:

I still have not received a report nor have I gotten any email responses from one of my commission chairs. I will submit this report without her report sent to me because I hate to be late on turning something in.
