W 12	31	August 1	2	Final exams end Full and Late summer 3		

Instructions to complete the Summer 2023 Semester @ a Glance

- The purpose of this time management tool is for students to have a bird's-eye view of the whole semester. Using this one-page tool, capture all the due dates you have on your syllabi—homework, exams, midterms, lab reports, projects, finals, and other graded assignments.
- Consider including major social/extracurricular events to have a complete picture of the semester: birthdays, club meetings, trips, etc. You can add events that you consider significant.
- Optional: Some students find it helpful to color code their Semester @ Glance by subject, type of assignment, or activity. You can also include how much each assignment is worth. Customize this time management tools to fit your needs.
