NACADA Region 10
State of the Region Report

2021 NACADA Annual Conference – Thurs. October 7

Region 10:

Operating Principles – 2021 Updates

• The NACADA Region Division Representatives initiated the effort in 2019 to review the operating principles that govern the ten NACADA Regions.
• Over the course of two years (and a global pandemic) these Region leaders, with input from Region Chairs and the Executive Office, updated the template used for the Region operating principles.
• The updates ensure that the governing documents for each region steering committee provide consistency and streamline processes for each region.
• The changes were official July 6, 2021.

Operating Principles – 2021 Updates

• Here are some highlighted changes.
  • All regions will hold steering committee elections simultaneously. Look for a call for nominations in November and elections in January.
  • All region steering committee position terms will now begin and end at regional conferences.
  • All elected positions will consist of two-year terms. After completing a term, a steering committee member may run for one additional consecutive term. After serving two two-year terms, an individual must wait two years before applying for an open steering committee position, with the exception of regional conference co-chair.
