As an academic advisor my overall goal is to help students navigate their academic career while exploring their educational and career goals. If selected as the Alabama State Liaison, I would have a similar goal of helping advisors in all types of institutions navigate resources NACADA provides like professional development opportunities, awards, and communities. These NACADA resources provide opportunities for advisors to learn new information and learn from other advisors across the state and beyond.

I am a product of both an Alabama community college and a 4 year institution. I see the need for advisors to work together across the state for the overall success of our students. I also see the need for advisors to have opportunities to get to know one another and provide feedback based on their education and experiences. I look forward to facilitating conversations that spark enthusiasm among our profession.
