• **Statement:** As state liaison, my primary goal will be to collaborate with the national and regional branches to provide additional opportunities and resources to NACADA members in Louisiana. This begins with reestablishing the Louisiana chapter, LACADA. I will work to create a steering committee of state members for the purpose of reforming LACADA and ensuring that activities of this group are engaging, relevant, and ongoing. Additionally, considering that resources for travel and professional development remain scarce in our region, another key goal will be to develop affordable and accessible engagement opportunities including regional drive-in workshops/meetings, webinars and video conferencing. I have served as a member of NACADA since 2010, currently play an active role in the NACADA Journal Editorial Board, and have over 10 years of experience in leadership roles across multiple colleges and universities.

Thanks,
Paul Donaldson, Ph.D.
Associate Provost of Planning and Academic Initiatives
Northshore Technical Community College
